The Honorable William E. Colby  
Director, Central Intelligence  
Agency  
Washington, D.C. 20505

Dear Mr. Colby:

We understand that the Central Intelligence Agency has been or is currently involved in the analysis of international civil technology activities. OTA is performing an assessment for several House and Senate Committees in the area of Technology and World Trade. It may be helpful if your people in that field would care to hear what we are doing, and it would be appreciated if we could get some ideas from you regarding our own effort.

Mr. Herman Pollack is conducting the Technology and World Trade project, and can be contacted directly to arrange for a meeting with the appropriate people from your organization.

Sincerely,

EMILIO Q. DADDARIO  
Director
